JOSEPH EDRICK E. MIRASOL

Molino 2, Bacoor City, Cavite | +63 935 029 3070 | josephmirasol25@gmail.com | github.com/mirasol25

PROFESSIONAL SUMMARY

Highly motivated IT professional combining hands-on experience in system integration and application development with a drive to continuously learn. Brings technical insights gained from a DICT internship alongside the exceptional time management and dedication of a four-year working student. Looking for a dynamic IT role to provide effective problem-solving and reliable technical solutions.

TECHNICAL SKILLS

- **Languages & Frameworks:** React.js, React Native, NestJS, Next.js, Flutter, Python, SQL
- **Databases & Backend:** MongoDB, Firebase, PostgreSQL
- **Hardware & IoT:** Arduino, Raspberry Pi
- **Tools & IT Skills:** Git, GitHub, Visual Studio Code, Networking, Microsoft Office

PROFESSIONAL EXPERIENCE

IT Intern

Department of Information and Communications Technology (DICT)

- Supported daily IT operations and public service initiatives, gaining hands-on experience in technical troubleshooting and system support.

Technical Seminar Facilitator

Academic/Community Project

- Organized and delivered instructional webinars on web development (Laravel), cybersecurity, and cryptocurrency, simplifying complex concepts to boost digital literacy.

PROJECTS

Dogoodie-Paired-Testing-Lab

- Developed a paired testing laboratory application utilizing Next.js for the frontend framework and PostgreSQL for robust database management.

Cavite Explorer (Tourism Mobile Application)

- Engineered a cross-platform tourism mobile application using Flutter, featuring GPS integration that rewards users with digital badges for visiting verified local landmarks.
- Integrated a commute guide routing feature and architected a reward redemption system intended for partnerships with nearby local businesses.

Water Station Management & POS System (Capstone Project)

- Engineered a scalable multi-branch POS and inventory system, enabling business owners to securely process transactions and track real-time operational data remotely.

EDUCATION

Bachelor of Science in Information Technology 2022 – 2026

Cavite State University - Imus Campus

TVL Track in Information and Communications Technology 2020 – 2022

SHS in San Nicolas III, Bacoor City Cavite
